DETAILED ACTION

Claim Objections

1. Claim 27 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The intended use does not further limit a composition.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Asahi Chemical Co., Ltd. JP-8-217972, in view of Kasai et al. 5,109,052, Hamada et al. 5,283,282, Kubo et al. 5,470,902, Kakegawa et al. 5,455,292, Asahi Chemical Industries Co., Ltd. JP-11-181271, Sumitomo Chemical Co., Ltd. JP-9-169903, Sumitomo Wiring Sys. Ltd. JP-6-184398 or Asahi Chemical Co., Ltd. JP-5-706682.

4. All references have been discussed already. Asahi Chemical JP-8-217972 discloses polyamide, polyphenylene ether, block copolymer, transition metals and halogens and their concentrations. The secondary references show the composition used as a relay block, the use of several flame-retardants and the paraffin oil, making their incorporation into the composition of the primary reference patently obvious. Since applicants' claims are directed to a composition and an article, the function of the transition metal and the halogen are completely irrelevant. The rejection is maintained.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-27 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-9 of U.S. Patent No. 6,984,678.

Although the conflicting claims are not identical, they are not patentably distinct from each other because since the metal/halogen stabilizer system can be added without any problem, its addition is obvious. The paraffin is incorporated into the block copolymer in advance, thus its presence does not have to be claimed separately from said block copolymer.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1714

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
